August 1 -7, 2011 in Paul, Portugal

(Class to be taught in English)

Thanks so much for the tips on building with straw bales, the great healthy meals, and the generosity that was offered. The workshop was a blast and I left there feeling extremely fulfilled with not only the building process, but also the relationships that were made. I feel very excited and confident about building our straw bale home in the near future.

-Milan M., Massachusetts
